

SPECIFIC RULES AND RESTRICTIONS

Weather-based Irrigation Controllers - \$50 Rebate

- ◆ Customers must have an existing automated irrigation system with an operable irrigation controller
- ◆ One weather-based irrigation controller per customer account (residential). Expansion packs are available.
- ◆ For a list of complete details visit the Yucaipa Valley Water District website at www.yvwd.dst.ca.us

Rain Barrels - \$50 Rebate

- ◆ Property must have existing gutters throughout the entire perimeter of the roof for adequate water collection and also existing downspouts. In the case of a partially flat roof, gutters, and downspouts must be throughout all pitched areas in order to qualify.
- ◆ Minimum size: 30 gallons, Maximum size: 199 gallons
- ◆ Rain barrel must be designed for the intended purpose of rain capture
- ◆ Must have a cover to prevent mosquitos, rodents and debris from entering barrel
- ◆ The rain barrel must be mounted in a way that allows the barrel to receive all water unimpeded from a down spout.
- ◆ Should not block or restrict access to walkways or pathways
- ◆ Rain barrel must be used for rain capture only and not be connected to a gray water system and/or the pressurized irrigation system. Rain water collected must be distributed through a hose or bucket.
- ◆ Must have an overflow spigot with mosquito netting or other prevention.
- ◆ Should be elevated 6 inches off the ground on a solid foundation.
- ◆ Should be strapped to your home for safety if the height of the barrel is two times greater than the width.
- ◆ Maximum of two rain barrel rebates allowed per service address.
- ◆ Rain barrel must be purchased as an entire rain barrel. Homemade rain barrels do not qualify for rebates.

Recirculating Pump - \$100 Rebate.

- ◆ The system must be self-activated (i.e. activated by a button, timer, switch, or wireless remote).
- ◆ The maximum number of hot water recirculation pump rebates is one per property.
- ◆ Installation of any rebated device, appliance or fixture is the sole responsibility of the applicant, as is determination of the adequacy and compatibility of the existing plumbing system.
- ◆ The recirculating pump can be installed by the homeowner or by a licensed plumber. Installation cost not covered as part of the rebate.
