June 15, 2017

Dear Customer/Resident:

The Yucaipa Valley Water District is continually working on the water system in order to improve water quality and fire protection. Unfortunately, there are occasions when water service has to be interrupted to allow for construction. Tuesday June 20, 2017 is one of those times when water service will need to be interrupted to your property from 8:30 a.m. to approximately 4:00 p.m.

If you have any internal pumps or solar heating systems, please take the necessary steps to protect them from damage while the water supply is off. We will do everything possible to restore water to your property promptly upon completion of our work.

If you have any questions or any special needs with respect to your water supply, please call customer service at 797-5117 between 8:00 a.m. and 4:30 p.m., Monday through Friday.

It is our advice that you not attempt to draw water from your system during the shutdown period to avoid drainage of your system.

Thank you for your cooperation.

Sincerely,

Michael Rivera
